

Statement of Philosophy

Our philosophy is to provide an environment for all children to learn, develop their sports skills and, most importantly, have fun in a safe and enjoyable way. We aim to emphasize the impact sport can have in improving social skills, team values and self esteem in children.

In providing a safe and enjoyable environment while promoting the cultural safety of indigenous children, children from a culturally and/or linguistically diverse backgrounds and children with a disability; MU Sport comply with all relevant government legislation regarding the safety and education of children and will ensure that our staff reflect this as well as being friendly and welcoming in nature and committed to engaging each and every child.

MU Sport views our sports camps and experiences as a community engagement opportunity. We respect the importance of community and open our programs to children of all abilities and backgrounds.

Our campers having fun, exploring new avenues to enjoy sports and staying fit and healthy is central to our philosophy.
