ICSC CRICKET RULES 2020

SPORT SPECIFIC RULES

RESTRICTIONS ON THE PLACEMENT OF FIELDSMEN

Due to the inability to have suitable ground-markings prepared, the two semi-circles referred to in rule 7.2 shall be replaced with an imaginary circle of a 30m radius from the centre of the wicket – umpires should use this 30m zone to enforce Twenty20 fielding restrictions.

BOWL-OUT.

In the event of a tie (in a Semi-Final or Final), a “Super Over” shall take place. Each team shall be given a second innings each of one (1) over each. A coin toss shall take place to determine which team shall complete their innings first. The bowling team may only use one bowler while bowling the “Super Over”. The batting team 3 batsmen. A Super Over ends if a team takes 2 wickets. The team who has scored the most runs after their “Super Over” shall be deemed the winner of the match. In the case of a tied “Super Over”, there shall be another “Super Over” for each team until a result is found. The teams must select different batsmen/bowler should another “Super Over” be required.

OVER LENGTH (WOMEN'S ONLY)

The length of any over is restricted to 9 balls with the exception of the second-last and last over of each innings.

INTERRUPTED GAMES

In the event that a game is cannot start on time due to poor weather, the both innings of the game shall be reduced in overs in relation to the amount of time lost (one over for every four minutes lost). In the event that a game is interrupted by poor weather, **the Duckworth/Lewis system** shall be used to decide the winner providing the team batting second has received 40% of the number of overs faced by the team who batted first.

In the event that the team batting second does not receive a minimum 40% of the overs faced by the team that batted first, the game will be declared a draw and both teams shall receive half the number of points allocated for the game.

SLOW PLAY PENALTIES

If the side bowling first does not bowl its 20 overs (10 for Women's competition) in its allocated time period (or other allocated number of overs in an interrupted match), it will lose double the number of overs it failed to bowl when it comes to bat. In applying this rule an allowance shall be made for time lost due to circumstances beyond the control of the fielding side (e.g. rain, injuries).
